1. CIVIL SOCIETY FACILITY 2014-2015

1.1. BACKGROUND

The strengths and weaknesses of the Civil Society (CS) in BiH as well as the challenges faced by the CS in the specific context of the European integration have been recurrently analysed since 2008 when the European Commission (EC) set up the 'Civil Society Facility' (CSF) to financially support the development of civil society, while the EC enlargement strategy underlined the "importance of civil society being able to play its role in a participatory democracy". Gaps and deficiencies in the legal framework both impact on the development of the sector and the prospects for success of interventions. The relationship between government and civil society has yet to be defined and operationalised particularly at higher levels. The engagement of civil society is limited and uneven. The domestic infrastructure to support civil society remains underdeveloped. Public awareness and the image of the sector need to be improved and deepened.

The EC BiH 2013 Progress report describes problems faced by the CS in BiH in the following terms¹:

- "- Even though the cooperation with civil society at local level has improved, at the State, Entity and Cantonal levels it remains weak
- Institutional mechanisms for cooperation with civil society are not fully operational at Entity level and are lacking at State level.
- Transparency in the allocation of funds for civil society organisations needs to improve.
- Public consultations with civil society and other stakeholders on the environment and climate fields need to be further strengthened."

The CS is becoming increasingly assertive in expressing dissatisfaction with political developments². A significant number of professional Civil Society Organisation (CSO)³ does exist. Yet, due to the inconsistent CSO registration procedures and the absence of a single register of CSOs, the overall number of CSOs operating in BiH can only be estimated (i.e. 12,000 registered CSO)⁴.

Over the recent years, the EC has adopted a shift in the methodology for assessing Political criteria for accession, including in relation to the involvement of the CS. The EC has increased focus on civil society as a way to meet the key challenges in bringing about functioning democratic institutions.

The EU focus on civil society development in Bosnia and Herzegovina has been on:

- Improvement of transparency in funding CSOs from public budgets
- Improvement of cooperation between municipal governments and CSOs
- Improvement of cooperation among CSOs.
- Establishment of institutional mechanisms for cooperation with civil society in the governments of the state, entities, and Brcko District.
- Regional cooperation among CSOs.

The BiH CSF is designed to impact on several sectors and/or priorities. The present Action is intended to contribute to the following priorities:

- Rule of law and fundamental rights Fight against corruption:
- Competitiveness and innovation, local development strategies Strengthen the development of SMEs / education, employment, entrepreneurship and social policies.
- Fundamental rights: support to networking of CSOs in areas of journalism and human rights concerning the right to a free access to information, freedom of expression, protection against violence and pressure.

All these will be implemented through separate procurement processes.

institutions. The educational institutions must be registered and acknowledged by relevant authority as an institution providing education and training and must be non-profit making.

2.1.2. Affiliated entities

Affiliated entity(ies)

The applicant and its co-applicant(s) may act with affiliated entity(ies)

Only the following entities may be considered as affiliated entities to the applicant and/or to coapplicant(s):

Only entities having a structural link with the applicants, in particular a legal or capital link.

This structural link encompasses mainly two notions:

(i) Control, as defined in Directive 2013/34/EU on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings:

Entities affiliated to a beneficiary may hence be:

- Entities directly or indirectly controlled by the beneficiary (daughter companies or first-tier subsidiaries). They may also be entities controlled by an entity controlled by the beneficiary (granddaughter companies or second-tier subsidiaries) and the same applies to further tiers of control;
- Entities directly or indirectly controlling the beneficiary (parent companies). Likewise, they may be entities controlling an entity controlling the beneficiary;
- Entities under the same direct or indirect control as the beneficiary (sister companies).
- (ii) Membership, i.e. the beneficiary is legally defined as a e.g. network, federation, association in which the proposed affiliated entities also participate or the beneficiary participates in the same entity (e.g. network, federation, association) as the proposed affiliated entities.

The structural link shall as a general rule be neither limited to the action nor established for the sole purpose of its implementation. This means that the link would exist independently of the award of the grant; it should exist before the call for proposals and remain valid after the end of the action.

By way of exception, an entity may be considered as affiliated to a beneficiary even if it has a structural link specifically established for the sole purpose of the implementation of the action in the case of so-called "sole applicants" or "sole beneficiaries". A sole applicant or a sole beneficiary is an entity formed by several entities (a group of entities) which together comply with the criteria for being awarded the grant. For example, an association is formed by its members.

What is not an affiliated entity?

The following are not considered entities affiliated to a beneficiary:

- Entities that have entered into a (procurement) contract or subcontract with a beneficiary, act as concessionaires or delegates for public services for a beneficiary,
- Entities that receive financial support from the beneficiary,
- Entities that cooperate on a regular basis with the beneficiary on the basis of a memorandum of understanding or share some assets,

- Entities that have signed a consortium agreement under the grant contract.

How to verify the existence of the required link with the beneficiary?

The affiliation resulting from control may in particular be proved on the basis of the consolidated accounts of the group of entities the beneficiary and its proposed affiliates belong to.

The affiliation resulting from membership may in particular be proved on the basis of the statutes or equivalent act establishing the entity (network, federation, association) which the beneficiary constitutes or in which the beneficiary participates.

If the applicants are awarded a contract, their affiliated entity(ies) will not be become Beneficiary(ies) of the Action and signatory(ies) of the Contract. However, they will participate in the design and in the implementation of the Action and the costs they incur (including those incurred for Implementation Contracts and Financial Support to third parties) may be accepted as eligible costs, provided they comply with all the relevant rules already applicable to the Beneficiary(ies) under the Grant Contract.

Affiliated entity(ies) must satisfy the same eligibility criteria as the applicant and the co-applicant(s). They must sign the affiliated entity(ies) statement in Part B section 5 of the grant application form.

In addition to the categories referred to in section 2.1.1, the following are however also eligible: The education institutions including secondary schools and universities and other certified educational institutions. The educational institutions must be registered and acknowledged by relevant authority as an institution providing education and training and must be non-profit making.

2.1.3. Associates and Contractors

The following entities are not applicant(s) nor affiliated entity(ies) and do not have to sign the "mandate" or "affiliated entities' statement":

Associates

Other organisations may be involved in the action. Such associates play a real role in the action but may not receive funding from the grant, with the exception of per diem or travel costs. Associates do not have to meet the eligibility criteria referred to in section 2.1.1. Associates must be mentioned in Part B section 6 — 'Associates of the Applicant participating in the Action' — of the Grant Application Form.

Contractors

The grant beneficiaries and their affiliated entities are permitted to award contracts. Associates or affiliated entity(ies) cannot be also contractors in the project. Contractors are subject to the procurement rules set out in Annex IV to the standard grant contract.

The final beneficiaries of the grants will be unemployed persons in targeted municipalities, who would directly benefit from the proposed actions. They <u>must be clearly identified in project proposals</u>, in terms of:

The beneficiaries of the grant will be Civil Society Organisations (CSOs) including business associations, and media associations. The CSOs will identify and implement anticorruption measures in line with public sector Anti-corruption strategies and Action plans.

2.1.5. Eligibility of costs: costs that can be included

Only 'eligible costs' can be covered by a grant. The categories of costs that are eligible and non-eligible are indicated below. The budget is both a cost estimate and an overall ceiling for 'eligible costs'.

The reimbursement of eligible costs may be based on any or a combination of the following forms:

- actual costs incurred by the Beneficiary(ies) and affiliated entity(ies)
- one or more simplified cost options.

Simplified cost options may take the form of:

- unit costs: covering all or certain specific categories of eligible costs which are clearly identified in advance by reference to an amount per unit.
- **lump sums:** covering in <u>global terms</u> all or certain specific categories of eligible costs which are clearly identified in advance.
- **flat-rate financing:** covering specific categories of eligible costs which are clearly identified in advance by applying a percentage fixed ex ante.

The amounts or rates have to be based on estimates using objective data such as statistical data or any other objective means or with reference to certified or auditable historical data of the applicants or the affiliated entity(ies). The methods used to determine the amounts or rates of unit costs, lump sums or flat-rates must comply with the criteria established in Annex K, and especially ensure that the costs correspond fairly to the actual costs incurred by the Grant Beneficiary(ies) and affiliated entity(ies), are in line with their accounting practices, no profit is made and the costs are not already covered by other sources of funding (no double funding). Refer to Annex K for directions and a checklist of controls to assess the minimum necessary conditions that provide reasonable assurance for the acceptance of the proposed amounts.

The applicant proposing this form of reimbursement, must clearly indicate in worksheet no.1 of Annex B, each heading/item of eligible costs concerned by this type of financing, i.e. add the reference in capital letters to "UNIT COST" (per month/flight etc), "LUMPSUM" or "FLAT RATE" in the Unit column. (see example in Annex K)

Additionally in Annex B, in the second column of worksheet no.2, "Justification of the estimated costs" per each of the corresponding budget item or heading the applicant must:

 describe the information and methods used to establish the amounts of unit costs, lump sums and/or flat-rates, to which costs they refer, etc.

- clearly explain the formulas for calculation of the final eligible amount⁷
- identify the beneficiary who will use the simplified cost option (in case of affiliated entity, specify first the beneficiary), in order to verify the maximum amount per each beneficiary (which includes if applicable simplified cost options of its affiliated entity(ies))

At contracting phase, the Contracting Authority decides whether to accept the proposed amounts or rates on the basis of the provisional budget submitted by the applicant, by analysing factual data of grants carried out by the applicant or of similar actions and by performing checks established by Annex K.

The total amount of financing on the basis of simplified cost options that can be authorised by the Contracting Authority for any of the applicants individually (including simplified cost options proposed by their own affiliated entities) cannot exceed EUR 60 000 (the indirect costs are not taken into account).

Recommendations to award a grant are always subject to the condition that the checks preceding the signing of the contract do not reveal problems requiring changes to the budget (such as arithmetical errors, inaccuracies, unrealistic costs and ineligible costs). The checks may give rise to requests for clarification and may lead the Contracting Authority to impose modifications or reductions to address such mistakes or inaccuracies. It is not possible to increase the grant or the percentage of EU co-financing as a result of these corrections.

It is therefore in the applicant's interest to provide a realistic and cost-effective budget.

Eligible direct costs

To be eligible under the Call for Proposals, costs must comply with the provisions of Article 14 of the General Conditions to the Standard Grant Contract (see Annex G of the Guidelines).

Contingency reserve

The budget may include a contingency reserve not exceeding 5% of the estimated direct eligible costs. It can only be used with the **prior written authorisation** of the Contracting Authority.

Eligible indirect costs

The indirect costs incurred in carrying out the action may be eligible for flat-rate funding, but the total must not exceed 7% of the estimated total eligible direct costs. Indirect costs are eligible provided that they do not include costs assigned to another budget heading in the standard grant contract. The applicant may be asked to justify the percentage requested before the contract is signed. However, once the flat rate has been fixed in the special conditions of the standard grant contract, no supporting documents need to be provided.

If any of the applicants or affiliated entity(ies) is in receipt of an operating grant financed by the EU, it may not claim indirect costs on its incurred costs within the proposed budget for the action.

Contributions in kind

Contributions in kind mean the provision of goods or services to a Beneficiary(ies) or affiliated entity(ies) free of charge by a third party. As contributions in kind do not involve any expenditure for a Beneficiary(ies) or affiliated entity(ies), they are not eligible costs.

Contributions in kind may not be treated as co-financing.

However, if the description of the action as proposed includes contributions in kind, the contributions have to be made.

⁷ Examples:- for staff costs: number of hours or days of work * hourly or daily rate pre-set according to the category of personnel concerned;- for travel expenses: distance in km * pre-set cost of transport per km; number of days * daily allowance pre-set according to the country;- for specific costs arising from the organization of an event: number of participants at the event * pre-set total cost per participant etc.

Ineligible costs

The following costs are not eligible:

- Debts and debt service charges (interest);
- Provisions for losses or potential future liabilities;
- Costs declared by the Beneficiary(ies) and financed by another action or work programme receiving a Union (including through EDF) grant;
- Purchases of land or buildings,
- Currency exchange losses;
- Credit to third parties.
- Salary costs of the personnel of national administrations.
- Taxes, including value added tax.

2.2. HOW TO APPLY AND THE PROCEDURES TO FOLLOW

Prior registration in PADOR for this Call for Proposals is obligatory.

- **Phase 1, concept note:** Registration in PADOR is obligatory for applicants.

Registration is optional though strongly recommended for co-applicant(s) and affiliated entity(ies).

Phase 2, full proposal: Registration in PADOR is obligatory for all pre-selected applicants, co-applicant(s) and all their affiliated entity(ies).

PADOR is an on-line database in which organisations register and update their data regularly, through the EuropeAid website: https://ec.europa.eu/europeaid/search/site/pador%20onlineservice_en

Before starting to register your organisation in PADOR, please read the 'Quick guide' on the website. It explains the registration process.

It is strongly recommended to register in PADOR when you start drafting your proposal and not to wait until just before the deadline of submission.

On the paper version of the proposal you must give your EuropeAid ID (EID). To get this ID, your organisation must enter PADOR to register, save and 'sign' certain obligatory data (the fields shown in orange on each screen) and the related documents (see section 2.4).

However, if it is impossible for the organisation to register in PADOR, it must submit a justification proving that this impossibility is general and beyond the control of the applicant and/or its affiliated entity(ies). In such cases, the applicants and/or affiliated entity(ies) concerned must complete the 'PADOR off-line form⁸ attached to these Guidelines and send it by the submission deadline, together with the application, to the address indicated in sections 2.2.2 and 2.2.6. The registration in PADOR will then be carried out by the European Commission service in charge of the Call for Proposals. If, at a later stage, the organisation wishes to update its data itself, it will have to send an access request to the PADOR helpdesk.

All questions related to registration in PADOR should be addressed to the PADOR helpdesk at: <u>Europeaidpador@ec.europa.eu</u>.

⁸ Which corresponds to Sections 3 and 4 of Part B of the application form.

2.2.1. Concept Note content

Applications must be submitted in accordance with the Concept Note instructions in the Grant Application Form annexed to these Guidelines (Annex A).

Applicants must apply in English.

In the Concept Note, applicants must only provide an estimate of the amount of contribution requested from the Contracting Authority and an indicative percentage of that contribution in relation to the total amount of the Action. Only the applicants invited to submit a full application in the second phase will be required to present a detailed budget. The elements outlined in the Concept Note may not be modified by the applicant in the full application form. The EU contribution may not vary from the initial estimate by more than 20%. Applicants are free to adapt the percentage of co-financing required within the minimum and maximum amount and percentages of co-financing, as laid down in these Guidelines in section 1.3. Own contributions by the applicants can be replaced by other donors' contributions at any time.

Any error or major discrepancy related to the points listed in the Concept Note instructions may lead to the rejection of the Concept Note.

Clarifications will only be requested when information provided is not sufficient to conduct an objective assessment.

Hand-written Concept Notes will not be accepted.

Please note that only the Concept Note form will be evaluated. It is therefore of utmost importance that this document contains ALL relevant information concerning the action. No additional annexes should be sent.

2.2.2. Where and how to send Concept Notes

The Concept Note together with its relating Checklist and Declaration by the applicant (to be found in **Part A sections 2 and 3** of the grant application form) must be submitted in one original and 2 copies in A4 size, each bound.

An electronic version of the Concept Note must also be submitted. A CD-Rom with the Concept Note in electronic format will be included, along with the paper version, in a sealed envelope as described below. The electronic file must contain **exactly the same** application as the paper version enclosed.

Where applicants send several different Concept Notes each one must be sent separately.

The outer envelope must bear the <u>reference number and the title of the call for proposals</u>, together with [the lot number and title] the full name and address of the applicant, and the words 'Not to be opened before the opening session' and "Ne otvarati prije zvaničnog otvaranja".

Concept Notes must be submitted in a sealed envelope by registered mail, private courier service or by hand-delivery (a signed and dated certificate of receipt will be given to the deliverer) to the address below:

Postal address:

Delegation of the European Union to Bosnia and Herzegovina Contract and Finance Section – Procurement Skenderija 3a, 71000 Sarajevo, Bosnia and Herzegovina

Concept Notes sent by any other means (e.g. by fax or by e-mail) or delivered to other addresses will be rejected.

Applicants must verify that their Concept Note is complete using the Checklist for Concept Note (Part A section 2 of the grant application form). Incomplete concept notes may be rejected.

2014 Page 17 of 27

2.2.3. Deadline for submission of Concept Notes

The deadline for the submission of Concept Notes is 02/06/2015 as evidenced by the date of dispatch, the postmark or the date of the deposit slip. In the case of hand-deliveries, the deadline for receipt is at 16:00 hour's local time as evidenced by the signed and dated receipt. Any Concept Note submitted after the deadline will be rejected.

However, for reasons of administrative efficiency, the Contracting Authority may reject any Concept Note sent in due time but received after the effective date of approval of the Concept Note evaluation (see indicative calendar under section 2.5.2)

2.2.4. Further information about Concept Notes

Questions may be sent by e-mail [or by fax] no later than 21 days before the deadline for the submission of Concept Notes to the address(es) below, indicating clearly the reference of the Call for Proposals:

E-mail address: Delegation-BIH-Procurement@eeas.europa.eu

The Contracting Authority has no obligation to provide clarifications to questions received after this date.

Replies will be given no later than 11 days before the deadline for submission of Concept Notes.

To ensure equal treatment of applicants, the Contracting Authority cannot give a prior opinion on the eligibility of applicants, affiliated entity(ies), an action or specific activities.

Questions that may be relevant to other applicants, together with answers and other important notices in the course of the evaluation procedure, will be published on the EuropeAid website https://webgate.ec.europa.eu/europeaid/online-services/index.cfm?do=publi.welcome and http://www.delbih.ec.europa.eu, as the need arises. It is therefore advisable to consult the abovementioned website regularly in order to be informed of the questions and answers published.

All questions related to PADOR registration should be addressed to the PADOR help desk:

Europeaid-pador@ec.europa.eu

2.2.5. Full Application forms

An applicant invited to submit a full application form following pre-selection of their Concept Note must do so using Part B of the application form annexed to these Guidelines (Annex A). Applicants should then keep strictly to the format of the application form and fill in the paragraphs and pages in order.

The elements outlined in the Concept Note cannot be modified by the applicant in the full application form. The EU contribution may not vary from the initial estimate by more than 20%, although applicants are free to adapt the percentage of co-financing required within the minimum and maximum amount and percentages of co-financing, as laid down in these Guidelines under section 1.3.

Applicants must submit their full applications in the same language as their Concept Notes.

Please complete the full application form carefully and as clearly as possible so that it can be assessed properly.

Any error related to the points listed in the Checklist (Part B, Section 7 of the Grant Application form) or any major inconsistency in the full application form (e.g. if the amounts in the budget worksheets are inconsistent) may lead to the rejection of the application.

Clarifications will only be requested when information provided is unclear and thus prevents the Contracting Authority from conducting an objective assessment.

Hand-written applications will not be accepted.

Please note that only the full application form and the published annexes which have to be filled in (budget, logical framework) will be transmitted to the evaluators (and assessors, if used). It is therefore of utmost importance that these documents contain ALL the relevant information concerning the action. **No supplementary annexes should be sent.**

2.2.6. Where and how to send Full Application forms

Applications must be submitted in one original and 2 copies in A4 size, each bound. The full application form, budget and logical framework must also be supplied in electronic format (CD-Rom) in a separate and single file (i.e. the full application form must not be split into several different files). The electronic file must contain **exactly the same** application as the paper version.

The Checklist (Section 7 of Part B of the grant application form) and the Declaration by the applicant (Section 8 of Part B of the grant application form) must be stapled separately and enclosed in the envelope

Applicants must verify that their application is complete using the checklist (Section 7 of Part B of the grant application form). Incomplete applications may be rejected.

2.2.7. Deadline for submission of Full Application forms

The deadline for the submission of applications will be indicated in the letter sent to the applicants whose application has been pre-selected.

However, for reasons of administrative efficiency, the Contracting Authority may reject any application sent in due time but received after the date of approval of the evaluation report for full applications (see indicative calendar under Section 2.5.2)

2.2.8. Further information about Full Application forms

Questions may be sent by e-mail [or by fax] no later than 21 days before the deadline for the submission of applications to the addresses listed below, indicating clearly the reference of the Call for Proposals:

Replies will be given no later than 11 days before the deadline for the submission of applications.

To ensure equal treatment of applicants, the Contracting Authority cannot give a prior opinion on the eligibility of applicants, affiliated entity(ies), or an action.

No individual replies will be given to questions. All questions and answers as well as other important notices to applicants during the course of the evaluation procedure, will be published on the website https://webgate.ec.europa.eu/europeaid/online-services/index.cfm?do=publi.welcome and http://www.delbih.ec.europa.eu. It is therefore advisable to consult the abovementioned website regularly in order to be informed of the questions and answers published.

2.3. EVALUATION AND SELECTION OF APPLICATIONS

Applications will be examined and evaluated by the Contracting Authority with the possible assistance of external assessors. All actions submitted by applicants will be assessed according to the following steps and criteria.

If the examination of the application reveals that the proposed action does not meet the <u>eligibility criteria</u> stated in paragraph 2.1, the application will be rejected on this sole basis.

(1) STEP 1: OPENING & ADMINISTRATIVE CHECKS AND CONCEPT NOTE EVALUATION

The following will be assessed:

- Compliance with the submission deadline. If the deadline has not been met, the application will automatically be rejected.
- The Concept Note satisfies all the criteria specified in points 1-5 of the Checklist (Section 2 of Part A of the grant application form). If any of the requested information is missing or is incorrect, the application may be rejected on that **sole** basis and the application will not be evaluated further.

The Concept Notes that pass the first administrative check will be evaluated on the relevance and design of the proposed action.

The Concept Note will receive an overall score out of 50 using the breakdown in the evaluation grid below. The evaluation will also check on compliance with the instructions on the Concept Note, which can be found in Part A of the Application Form.

The <u>evaluation criteria</u> are divided into headings and subheadings. Each subheading will be given a score between 1 and 5 as follows: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

Scores

1. Relevance of the action	Sub-score	30
1.1 How relevant is the proposal to the objectives and priorities of the Call for Proposals?*	5x2**	
1.2 How relevant to the particular needs and constraints of the target country(ies) or region(s) is the proposal (including synergy with other EU initiatives and avoidance of duplication)?	5x2*	
1.3 How clearly defined and strategically chosen are those involved (final beneficiaries, target groups)? Have their needs been clearly defined and does the proposal address them appropriately?	5	
1.4 Does the proposal contain specific added-value elements, such as environmental issues, promotion of gender equality and equal opportunities, needs of disabled people, rights of minorities and rights of indigenous peoples, or innovation and best practices.	5	

2. Design of the action	Sub-score	20
2.1 How coherent is the overall design of the action?	5x2**	
In particular, does it reflect the analysis of the problems involved, take into account external factors and relevant stakeholders?		
2.2 Is the action feasible and consistent in relation to the objectives and expected results?	5x2**	

TOTAL SCORE

50

Once all Concept Notes have been assessed, a list will be drawn up with the proposed actions ranked according to their total score.

Firstly, only the Concept Notes with a score of at least 30 will be considered for pre-selection.

Secondly, the number of Concept Notes will be reduced, taking account of the ranking, to the number of Concept Notes whose total aggregate amount of requested contributions is equal to 200% of the available budget for this Call for Proposals. The amount of requested contributions of each concept note will be based on the indicative financial envelopes for each lot.

After the evaluation of Concept Notes, the Contracting Authority will send letters to all applicants, indicating whether their application was submitted by the deadline, informing them of the reference number they have been allocated, whether the Concept Note was evaluated and the results of that evaluation. The pre-selected applicants will subsequently be invited to submit full applications.

(2) STEP 2: EVALUATION OF THE FULL APPLICATION

Firstly, the following will be assessed:

- Compliance with the submission deadline. If the deadline has not been met, the application will automatically be rejected.
- The full application form satisfies all the criteria specified in points 1-9 of the Checklist (Section 7 of Part B of the grant application form). If any of the requested information is missing or is incorrect, the application may be rejected on that <u>sole</u> basis and the application will not be evaluated further.

The quality of the applications, including the proposed budget and capacity of the applicants and affiliated entity(ies), will be evaluated using the evaluation criteria in the evaluation grid below. There are two types of evaluation criteria: selection and award criteria.

<u>The selection criteria</u> help to evaluate the applicant(s)'s and affiliated entity(ies)'s operational capacity and the applicant's financial capacity and to ensure that they:

- have stable and sufficient sources of finance to maintain their activity throughout the proposed action and, where appropriate, to participate in its funding;
- have the management capacity, professional competencies and qualifications required to successfully complete the proposed action. This also applies to any affiliated entity(ies) of the applicants.

2014 Page 21 of 27

^{*} Note: A score of 5 (very good) will only be allocated if the proposal specifically addresses more than the required minimum number of priorities as indicated in Section 1.2 (Objectives of the programme) of these guidelines.

^{**}these scores are multiplied by 2 because of their importance

<u>The award criteria</u> help to evaluate the quality of the applications in relation to the objectives and priorities, and to award grants to projects which maximise the overall effectiveness of the Call for Proposals. They help to select applications which the Contracting Authority can be confident will comply with its objectives and priorities. They cover the relevance of the action, its consistency with the objectives of the Call for Proposals, quality, expected impact, sustainability and cost-effectiveness.

Scoring:

The evaluation grid is divided into sections and subsections. Each subsection will be given a score between 1 and 5 as follows: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

Evaluation Grid

1.2 Do the applicants and, if applicable, their affiliated entity(ies) have sufficient technical expertise? (especially knowledge of the issues to be addressed)	5
1.3 Do the applicants and, if applicable, their affiliated entity(ies) have sufficient management capacity? (Including staff, equipment and ability to handle the budget for the action)?	5

3.4 Is the co-applicant(s)'s and affiliated entity(ies)'s level of involvement and participation in the action satisfactory?	5
4. Sustainability of the action	15
4.1 Is the action likely to have a tangible impact on its target groups?	5
4.2 Is the proposal likely to have multiplier effects? (Including scope for replication, extension and information sharing.)	5

4.3 Are the expected results of the proposed action sustainable?:	5
- financially (how will the activities be financed after the funding ends?)	
- institutionally (will structures allowing the activities to continue be in place at the end of the action? Will there be local 'ownership' of the results of the action?)	
- at policy level (where applicable) (what will be the structural impact of the action—e.g. will it lead to improved legislation, codes of conduct, methods, etc?)	
- environmentally (if applicable) (will the action have a negative/positive environmental impact?)	
5. Budget and cost-effectiveness of the action	15
5.1 Are the activities appropriately reflected in the budget?	/ 5
5.2 Is the ratio between the estimated costs and the expected results satisfactory?	/ 10
Maximum total score	100

Note on section 1. Financial and operational capacity

If the total score for section 1 is less than 12 points, the application will be rejected. If the score for at least one of the subsections under section 1 is 1, the application will also be rejected.

Provisional selection

After the evaluation, a table will be drawn up listing the applications ranked according to their score and within the limits of the funds available. In addition, a reserve list will be drawn up following the same criteria to be used if more funds should become available during the validity period of the reserve list.

(3) STEP 3: VERIFICATION OF ELIGIBILITY OF THE APPLICANTS AND AFFILIATED ENTITY(IES)

The eligibility verification, based on the supporting documents requested by the Contracting Authority (see Section 2.4) will <u>only</u> be performed for the applications that have been provisionally selected according to their score and within the available financial envelope.

- The Declaration by the applicant (Section 8 of Part B the grant application form) will be cross-checked with the supporting documents provided by the applicant. Any missing supporting document or any incoherence between the Declaration by the applicant and the supporting documents may lead to the rejection of the application on that sole basis.
- The eligibility of applicants, the affiliated entity(ies), and the action will be verified according to the criteria set out in Sections 2.1.1, 2.1.2 and 2.1.3.

Any rejected application will be replaced by the next best placed application on the reserve list that falls within the available financial envelope.

2.4. SUBMISSION OF SUPPORTING DOCUMENTS FOR PROVISIONALLY SELECTED APPLICATIONS

An applicant that has been provisionally selected or placed on the reserve list will be informed in writing by the Contracting Authority. It will be requested to supply the following documents in order to allow the Contracting Authority to verify the eligibility of the applicant, (if any) of the co-applicant(s) and (if any) of their affiliated entity(ies).

Supporting documents must be provided through PADOR, see Section 2.2

- 1. The statutes or articles of association of the applicant, (if any) of each co-applicant(s) and (if any) of each affiliated entity(ies).
- 2. A copy of the applicant's latest accounts (the profit and loss account and the balance sheet for the last financial year for which the accounts have been closed). A copy of the latest account is neither required from (if any) the co-applicant(s) nor from (if any) affiliated entity(ies).
- 3. Legal entity sheet (see annex D of these Guidelines) duly completed and signed by each of the applicants (i,e by the applicant and (if any) by each co-applicant(s), accompanied by the justifying documents requested there. If the applicants have already signed a contract with the Contracting Authority, instead of the legal entity sheet and supporting documents, the legal entity number may be provided, unless a change in legal status occurred in the meantime.
- 4. A financial identification form of the applicant (not from co-applicant(s)) conforming to the model attached at Annex E of these Guidelines, certified by the bank to which the payments will be made. This bank should be located in the country where the applicant is established. If the applicant has already submitted a financial identification form in the past for a contract where the European Commission was in charge of the payments and intends to use the same bank account, a copy of the previous financial identification form may be provided instead.

Where the requested supporting documents are not uploaded in PADOR they must be supplied in the form of originals, photocopies or scanned versions (i.e. showing legible stamps, signatures and dates) of the said originals. However, the Legal entity sheet and the financial identification form must always be submitted in original.

Where such documents are not in one of the official languages of the European Union or in the language of the country where the action is implemented, a translation into the language(s) of the call for proposals of the relevant parts of these documents proving the applicant(s)'s eligibility, must be attached and will prevail for the purpose of analysing the application.

Where these documents are in an official language of the European Union other than the language of the call for proposals, it is strongly recommended, in order to facilitate the evaluation, to provide a translation of the relevant parts of the documents, proving the applicants' eligibility, into the language of the call for proposals. If the abovementioned supporting documents are not provided before the deadline indicated in the request for supporting documents sent to the applicant by the Contracting Authority, the application may be rejected.

After verifying the supporting documents, the Evaluation Committee will make a final recommendation to the Contracting Authority, which will decide on the award of grants.

NB: In the eventuality that the Contracting Authority is not satisfied with the strength, solidity, and guarantee offered by the structural link between one of the applicants and its affiliated entity, it can require the submission of the missing documents allowing for its conversion into co-applicant. If all the missing documents for co-applicants are submitted, and provided all necessary eligibility criteria are fulfilled, the above mentioned entity becomes a co-applicant for all purposes. The applicant has to submit the application form revised accordingly.

2.5. NOTIFICATION OF THE CONTRACTING AUTHORITY'S DECISION

2.5.1. Content of the decision

The applicants will be informed in writing of the Contracting Authority's decision concerning their application and, if rejected, the reasons for the negative decision.

An applicant believing that it has been harmed by an error or irregularity during the award process may lodge a complaint. See further Section 2.4.15 of the Practical Guide.

2.5.2. Indicative timetable

2.6. CONDITIONS FOR IMPLEMENTATION AFTER THE CONTRACTING AUTHORITY'S DECISION TO AWARD A GRANT

Following the decision to award a grant, the Beneficiary(ies) will be offered a contract based on the Contracting Authority's grant contract (see Annex G of these Guidelines⁹). By signing the application form

(Annex A of these Guidelines), the applicants agree, if awarded a grant, to accept the contractual conditions of the standard grant contract.

2.7. EARLY WARNING SYSTEM AND CENTRAL EXCLUSION DATABASE

The applicants and, if they are legal entities, the persons who have powers of representation, decision-making or control over them, are informed that, should they be in one of the situations mentioned in:
