1. INTRODUCTION

This call for proposals for action grants is based on the 2015 annual work programme¹ of the Justice Programme.² It aims to co-fund transnational projects promoting the quality of the national justice systems, in line with the specific objective to facilitate effective access to justice for all.

Proposals should aim to produce results with EU added value.

Organisations interested in submitting applications should first read the **detailed terms and conditions set out in this call for proposals and the Guide for Action Grants** published together with this call and constituting an integral part of the conditions of the call.

2. PRIORITIES AND ACTIVITIES TO BE FUNDED

The proposals under this call shall focus on the priority described below.

Proposals shall complement the efforts of the EU in the area of facilitating the access to justice. Duplications of already existing initiatives will not be funded. Applicants shall explain and demonstrate how their proposals are aligned with the respective EU policy and with the documents published by the European Commission and referred to below. The degree of relevance to the priorities of the call for proposals will be assessed under the relevance award criterion.

2.1. Priorities

The priority of this call for proposals is to provide an analysis of courts' practices, and initiatives taken, aiming at enhancing the quality of the judicial systems in Member States. Proposals should focus on court best practices in Member States to improve the functioning of the judiciary, for example as regards court management, streamlined case handling, in-house coordination, communication with the parties, possibility to follow up on the case file, quality assurances and other methods to make court proceedings effective and user friendly.

Proposals should also promote a better knowledge of best practices in Member States contributing to the effectiveness of national judicial systems and they should have a clear dissemination strategy actively spreading information about the project, its activities and its results.

2.2. Description of the activities to be funded under the call

This call will fund activities on:

- collection of data and analytical work to provide comparative analysis of practices of national courts and other actors of the judicial system to promote the quality of the justice system;
- mutual learning, exchange of good practices amongst legal practitioners in this area.

¹ Commission Implementing Decision of 30.03.2015 concerning the adoption of the work programme for 2015 and the financing for the implementation of the Rights, Equality and Citizenship Programme, [C\(2015\) 1996/ Justice Programme, C\(2015\) 1997](#).

² [Regulation No 1382/2013 of the European Parliament and of the Council of 17 December 2013 establishing a Justice Programme for the period 2014-2020](#) OJ L 354, 28.12.2013, p. 73.

The applicants are encouraged to present proposals with a high geographical diversity among the Member States.

The applicants should take into account the information already available under the Justice Scoreboard website³.

Proposals under all priorities must make provisions to document the number of persons/professionals reached, provide anonymised data disaggregated by gender and by age and must describe in their grant application how this will be done.

This call does not aim to fund projects in the area of e-Justice or of judicial training. Dedicated calls for proposals for these areas will be published by DG Justice in the website⁴.

The following types of activities will not be funded by the Commission:

- activities supporting individual political parties;
- provision of financial support to third parties;
- legal actions before national or international courts regardless of their grounds or objectives.

2.3. Mainstreaming

Projects funded under this call shall also seek to promote equality between women and men. Consequently, when relevant, the applicant shall take the necessary steps to ensure that gender equality issues are taken into account.

Projects funded under this call shall also seek to promote equality. Among others the Commission encourages applicants to promote equal employment opportunities for all its staff and team. This entails that the beneficiary is encouraged to foster an appropriate mix of people, whatever their ethnic origin, religion, age, and ability.

Finally, all projects under this call shall respect and shall be implemented in line with the rights and principles enshrined in the Charter of Fundamental Rights of the European Union.

While planning their project and preparing their application, applicants should take into account these requirements and demonstrate in their proposal how these requirements will be respected at implementation stage. Beneficiaries will be required to detail in their final activity report the steps and achievements made towards meeting these requirements.

3. BUDGET AVAILABLE

The indicative available budget under this call for proposals is: **1.000.000 EUR**

The Commission reserves the right not to award all available funds, and/or to redistribute the amounts per priority depending on the projects received and the outcome of the evaluation procedure.

4. EVALUATION PROCEDURE

All applications are subject to an evaluation process involving five sets of criteria.

The evaluators will check whether the application complies with all the formal requirements (admissibility, exclusion and eligibility criteria).

Applications are furthermore subject to the verification of operational and financial capacity (selection criteria), and they will be evaluated on the basis of the award criteria mentioned in the call. For the verification of the selection criteria the evaluators, based on the documents submitted, will check whether the applicant and partners have enough financial, human and operational resources to carry out the activities described in *Annex 1- Project Description and Implementation Form*.

For the evaluation of the award criteria the evaluators will assess the proposal on its merits against the award criteria, giving points to each proposal.

Proposals will be evaluated by an evaluation committee composed of Commission staff. The committee may be assisted by external experts. The proposals will be evaluated solely on the basis of the criteria outlined below. In most cases, admissibility, exclusion and eligibility criteria will be checked first, but the evaluation committee may decide to proceed in a different order or assess different sets of criteria in parallel.

4.1. Admissibility Requirements

To be admissible applications must comply with all of the following criteria:

- (a) Applications must be submitted no later than the deadline for submission referred to in section 8.
- (b) Applications must be submitted using PRIAMOS, the online application tool of Directorate-General Justice and Consumers.
- (c) Applications must be submitted using the standard PRIAMOS Grant Application Form. They must include all the mandatory information and be accompanied by all the compulsory documents and annexes requested under section 7.3 of this call for proposals.

4.2. Eligibility Criteria

To be eligible, applications must fulfil all of the following criteria. If a grant application is declared ineligible, it will not be considered for further evaluation and a rejection letter to that effect will be sent to the applicant.

4.2.1. Eligibility of the applicant and of the partners

Applicants and partners must comply with the following requirements:

- (a) **Legal status:** The applicant must be a public entity active in the judicial field, and partners must be legally constituted public or private organisations, or international organisations

Bodies set up by the European Union falling under Article 208 of the Financial Regulations (EU bodies and institutions) are not eligible for funding and cannot

submit applications. They can be associated to an application, but their costs will not be co-financed.

Only legally constituted organisations can participate. Natural persons (private individuals) are not allowed to submit applications.

- (b) **Eligible country:** Applicant and partners must be legally established in an eligible country. This is not applicable for International organisations.

IMPORTANT NOTE

Eligible countries⁵:

⇒ the EU Member States, except for UK and DK⁶.

4.2.2. Eligibility of the application

- (a) The project must be transnational and must be submitted by a partnership of eligible organisations. For the purpose of this call, the proposal must be submitted by organisations (applicant and partner(s)) from at least five different eligible countries as referred to under section 4.2.1 of this call. Please note that any associate partners participating in the project are not counted for the purposes of this criterion;
- (b) The EU grant requested cannot be lower than EUR 150 000. There is no upper limit.
- (c) Projects must not have started prior to the date of submission of the grant application.

4.3. Exclusion Criteria

4.3.1. Exclusion from participation

Organisations (i.e. applicant and partners) will be excluded from participating in this call for proposals if they are in any of the following situations:

- (a) they are bankrupt or being wound up, are having their affairs administered by the courts, have entered into an arrangement with creditors, have suspended business activities, are the subject of proceedings concerning those matters, or are in any analogous situation arising from a similar procedure provided for in national legislation or regulations;
- (b) they or persons having powers of representation, decision making or control over them have been convicted of an offence concerning their professional conduct by a judgment of a competent authority of a Member State which has the force of res judicata;

⁵ If, before the deadline for submission of proposals, other countries (EEA countries, candidate countries) join the programme, a notification will be placed on the call website informing applicants that organisations from such countries can participate as applicants or partners.

⁶ UK: UK chose not to participate in the Justice Programme and therefore organisations established in the UK can neither be applicants nor partners in this call for proposals under the Justice Programme.
DK: DK does not participate in the Justice Programme. Therefore organisations established in DK can neither be applicants nor partners in this call for proposals under the Justice Programme.

- (c) they have been guilty of grave professional misconduct proven by any means which the contracting authority can justify including by decisions of the EIB and international organisations;
- (d) they are not in compliance with their obligations relating to the payment of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which they are established or with those of Belgium or those of the country where the grant agreement is to be performed;
- (e) they or persons having powers of representation, decision making or control over them have been the subject of a judgment which has the force of *res judicata* for fraud, corruption, involvement in a criminal organisation, money laundering or any other illegal activity, where such an illegal activity is detrimental to the Union's financial interests;
- (f) they are currently subject to an administrative penalty referred to in Article 109(1) of Regulation (EU, EURATOM) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union (Financial Regulation)⁷.

4.3.2. Exclusion from award

Organisations (i.e. applicant and partners) will not be granted financial assistance if, in the course of the grant award procedure, they:

- (a) are subject to a conflict of interest;
- (b) are guilty of misrepresentation in supplying the information required by the Commission as a condition of participation in the grant award procedure or fail to supply this information;
- (c) find themselves in one of the situations of exclusion, referred to in section 4.3.1.

Administrative and financial penalties may be imposed on applicants who are guilty of misrepresentation.

4.4. Selection criteria

4.4.1. Financial capacity

Applicants and partners must have stable and sufficient sources of funding to maintain their activity throughout the period for which the grant is awarded and to participate in its funding. Organisations participating in several projects shall have sufficient financial capacity to implement multiple projects.

If the share of a grant requested by an organisation (applicant or partner)⁸ exceeds EUR 750 000, this organisation must submit an audit report produced by an approved external auditor certifying its accounts for the last closed financial year.

⁷ OJ L298, 26.10.2012, p.1.

⁸ See the calculation in the Grant Application Form, section 1.5, column *Value of EU Contribution Expected*.

If the Commission considers that the financial capacity is not satisfactory, it may request further guarantees or impose risk mitigation measures (e.g. reduced or no pre-financing, bank guarantee covering the amount of pre-financing payment), or reject the application.

Please note that the financial capacity shall not be verified for public bodies or international organisations.

In case of applications submitted on behalf of a partnership, partners declare on their honour in the partner declaration that they possess financial capacity to implement the project. The Commission reserves the right to request financial documents also from partners.

4.4.2. Operational capacity

The applicant and the partners must have sufficient operational and professional capacities to implement the activities for which co-funding is requested. Organisations participating in several projects shall have sufficient operational capacity to implement multiple projects.

For the purpose of demonstrating its operational capacity, the applicant must present CVs of key staff involved in the project (employed by the applicant and the partners), who must have the necessary education, skills, experience and capacity to carry out the tasks that are assigned to them during the project. The applicant must also provide its annual technical/narrative reports for the last available year. Partner declarations may also be used when assessing this criterion.

Applicants may not be awarded a grant if they fail to demonstrate that they have the capacity, the experience and the expertise necessary for the successful implementation of the proposed activities.

4.5. Award criteria

The award criteria aim to ensure the selection of projects with a high inherent quality, which contribute as much as possible to the priorities of this call in a cost-effective manner. Synergies and complementarities with other Union instruments and programmes shall be sought and overlaps and duplications with existing activities avoided.

Applications will be assessed against the following criteria:

(a) Relevance to the priorities of the call (30 points):

Relevance of the action and its objectives to the priorities of the call for proposals, as described under section 2 of this call notice, relevance of the issues addressed by the project, contribution of the proposal to the priorities, and complementarity with other Union activities, avoiding duplication with projects funded by other Union programmes. Every proposed action has to be preceded by a reliable needs assessment.

(b) Quality of the proposed action (30 points):

Quality shall be assessed in terms of the proposed methodology for implementing the activities; the organisation of work, the allocation of resources and the time schedule; the appropriateness of the envisaged activities.

The evaluation of the project's quality will also assess the strategy for monitoring the project implementation and the identification of risks and the measures to mitigate them; the proposed evaluation, including measures to assess the success of the activities and the indicators to be used; the identification of ethical issues and the proposed action to address them.

(c) European added value of the project (20 points):

The European added value of the project shall be assessed in the light of criteria such as its contribution to the consistent and coherent implementation of Union law and policies and to wide public awareness about the rights deriving from it, its potential to develop mutual trust among Member States and to improve cross-border cooperation, its transnational impact, its contribution to the elaboration and dissemination of best practices or its potential to create practical tools and solutions that address cross-border or Union-wide challenges.

Where national projects are eligible, projects which have a transnational impact will be more favourable assessed than projects whose scope is purely limited to one Member State.

(d) Expected results, dissemination, sustainability and long-term impact (10 points):

How appropriate are the expected results to achieve the objectives of the action⁹? Is there a long-term impact of these results on the target groups and/or the general public? A clear, targeted and appropriate dissemination strategy, which will ensure that the results and/or lessons learnt will reach the target groups and/or the general public? Is sustainability of the activities after the EU funding ensured?

(e) Cost-effectiveness (10 points):

Financial feasibility of the proposed activities by means of a realistic and reasonable budget. Appropriateness of the amount requested in relation to the scale and type of the activities, to the expected results and to the size of the partnership. Appropriateness of management and coordination costs.

As a result of the evaluation carried out against the above award criteria the proposals will be ranked according to the points attained. The list of awarded projects will be established based on the amount of budget available.

Proposals not attaining an overall score of 70 points will not be considered for the award of a grant even in case the available budget is not consumed fully. Proposals not attaining a score of 21 points for the relevance criterion will not be considered for the award of a grant.

Once the evaluation procedure is completed, the Commission will adopt a formal award decision indicating the selected and the rejected proposals, publish it on Directorate-General Justice and Consumers' Website and then send a letter informing each applicant of the final decision taken, including reasons for rejection, where applicable. Please note that the award decision does not represent a legal or financial commitment on the part of

⁹ To be distinguished from outputs which are produced with the resources allocated to the proposed action, e.g. training courses, conferences, leaflets.

the Commission. The award of each grant is subject to the conclusion of a Grant Agreement in writing.

After the award decision has been adopted, the Commission will prepare the Grant Agreements for the selected applications (including dialogue with the applicant concerning any necessary technical and financial adjustments).

Experience shows that usually the number of the proposals scoring above the minimum threshold of 70 points exceeds the number of the projects that can be funded from the available budget.

Therefore, the Commission reserves the right to set up a reserve list in addition to the award list. Proposals placed on the reserve list may receive funding should additional funding become available after the adoption of the award decision. This typically happens if an awarded project is cancelled or withdrawn or if grants are reduced during the budget review of awarded projects. In this case the Commission will contact the applicant of the project ranked highest on the reserve list.

5. ADMINISTRATIVE AND FINANCIAL PROVISIONS

5.1. Number of applications and grants per applicant

Applications for several projects

The applicant may submit more than one application under this call for proposals.

The applicant may be awarded more than one grant under this call for proposals.

An organisation may participate as applicant, partner or associate partner in several applications.

Several applications for the same project

Only one application will be accepted and evaluated for any given project. If the applicant submits more than one version of the application package or of documents contained therein under the same application number, only the latest version submitted will be taken into consideration for the evaluation. In case there are several applications for the same project with different application numbers, the applicant will be asked to clarify which application shall be evaluated.

An action may receive only one grant from the EU budget.

5.2. Start date and duration

Projects should be scheduled to start after the Grant Agreement is signed. (See section 8 - Timetable). The actual start date of the project will be the date agreed by the Commission during the preparation of the Grant Agreement.

Starting the project before the signature of the Grant Agreement will be accepted only under exceptional circumstances, where the applicant can demonstrate the need to start the project before the Grant Agreement is signed.

A project that has already started before the date the grant application was submitted is not eligible for funding (see section 4.2.2.c).

The initial duration of the projects should not exceed 12 months.

5.3. Financial provisions

The funding under this call is based on the co-financing principle: the grant cannot constitute more than 80% of overall eligible project costs. The beneficiaries should ensure that the outstanding balance is covered from sources other than the EU budget (own resources of beneficiaries, contributions by donors, income generated by the project). The project budget must have revenue and expenditure in balance.

Contributions in kind

Contributions in kind mean the provision of goods or services to a beneficiary(ies) free of charge by a third party. As contributions in kind do not involve any expenditure for a beneficiary(ies) they are not eligible costs.

Contributions in kind may not be treated as co-financing. However, if the description of the project as proposed includes contributions in kind, the contributions have to be made.

Non-profit rule

EU grants may not have the purpose or effect of producing a profit within the framework of the project. Profit shall be defined as a surplus of the receipts over the eligible costs incurred by the beneficiary, when the request is made for payment of the balance. In this respect, where a profit is made, the Commission shall be entitled to recover the percentage of the profit corresponding to the Union contribution to the eligible costs actually incurred by the beneficiary to carry out the project. More details are provided in the Guide for Action Grants.

Sub-contracting and implementing contracts

If the beneficiaries have to conclude contracts with third parties in order to carry out a limited part of the activities, it shall justify this working method in the *Annex I - Project Description and Implementation Form* and duly respect the rules set out in the Guide for Action Grants, in the section on award of contracts. As a general rule, subcontracting shall be limited to 30% of the total eligible costs. If this threshold is exceeded in the budget estimate, the applicant shall provide justification, which shall help the Commission to assess whether the exception can be accepted.

Financial support to third parties

Projects through which the beneficiaries use the budget of the project to award grants to other organisations under their own procedures and authority (Financial support to third parties) cannot be financed under this call for proposals.

Estimated budget

Before signature of a grant agreement, the estimated budget submitted by the applicant is subject to a review. If problems such as arithmetical errors, inaccuracies, unrealistic costs and ineligible costs are identified, the Commission may request clarifications and/or may

impose modifications or reductions to address such mistakes or inaccuracies. It is not possible to increase the grant as a result of these corrections.

Applicants must provide a realistic and cost-effective budget. The estimated budget must be prepared in accordance with the provisions of section V of the Guide for Action Grants.

If the amount of the grant is lower than the amount requested, it is the responsibility of the beneficiaries to find the additional funds required to cover its co-financing share or to reduce the total cost of the project.

Grant Agreement

Grants awarded shall be governed by a written agreement. The agreement is a standard agreement; its terms and conditions may not be altered and are not subject to negotiation.

The coordinator will be requested to sign a multi-beneficiary grant agreement,. More information is available in the Guide for Action Grants.

The Grant agreement templates are published on the webpage of the call for proposals.

VAT

Please note that new rules concerning eligibility of VAT entered into force on 1 January 2013. The change concerns more particularly public entities. Applicants should refer to the Guide for Action Grants for more detailed information.

6. KICK-OFF MEETING & DISSEMINATION ACTIVITIES

6.1. Kick-off meeting

The Commission intends to organise a one-day "kick-off" meeting in Brussels for successful applicants. The meeting will focus on project management, administrative and financial aspects as well as reporting obligations.

If necessary, applicants should include return travel to Brussels and subsistence costs for up to two representatives in their estimated project budget. A single overnight stay should be sufficient.

The meeting should be attended preferably by the project coordinator and the financial coordinator.

6.2. Dissemination activities

During the project implementation, it could be envisaged that the beneficiaries are invited by the Commission to present their projects or their project results in seminars or conferences or to participate in study visits with other beneficiaries.

The applicants are therefore invited to include in their estimated project budget costs for return travel and subsistence for one overnight stay. Applicants should estimate that one representative of their organisation attends maximum two events of this kind.

7. PROCEDURE FOR SUBMISSION OF PROPOSALS

7.1. Procedure for submission of applications

This call is managed via **PRIAMOS**, an on-line system for the submission of applications.

Applicants first need to register and obtain a login and password to access the system. This should be done as soon as a decision is taken to participate in this call.

Applications must be submitted, in their entirety, through PRIAMOS. No applications (partial or entire) submitted on paper, fax or e-mail will be considered.

Information and guidance on how to register and submit an application via PRIAMOS can be found on the following website:

However, applicants will be able to access the application they submitted at any time after the deadline.

Please note that, although the PRIAMOS system is able to deal with a lot of applications at the same time, it is advisable not to wait until the last moment to register on the system and submit an application. Applicants are advised to verify that their registration details in PRIAMOS are up-to-date. Contact details are uploaded directly into the application form and, in case of a successful application, used when preparing the grant agreement.

No extension of the deadline will be granted. No application will be accepted if the upload of the application package fails due to reasons which are beyond the Commission's control.

7.2. Grant Application Form

The applicant will be able to download the specific **Grant Application Form** mandatory for this call once it has registered in PRIAMOS.

12. PARTICULAR ASPECTS OF PROJECT IMPLEMENTATION

12.1. Dissemination strategy and communication tools

Adequate communication and active dissemination of results is essential in ensuring the EU added value of the project and its sustainability after the funding has ended. Information-giving and awareness raising are key activities to ensure that other interested parties benefit from the project and can create new opportunities to extend it or develop new partnerships. The proposal should provide in Annex 1 a clear description of the dissemination and communication activities to be funded, including at least the following elements:

- **Communication needs and objectives:** What are the communication needs and objectives of the project?
- **Target groups and multipliers:** What are the target groups? Which stakeholders or other organisations could possibly be supporters and multipliers of the communication activities?
- **Key messages:** Which messages will the activities convey in order to meet the communication objectives? It is essential that the messages do not stigmatise any specific group (for example ethnic minorities). It is also encouraged not to reproduce or spread gender stereotypes.

- **Distribution channels/tools:** Which channels/tools will be used to convey the messages to the target groups and multipliers?

At final report stage, the beneficiary will be required to provide details about how and to whom the results, best practices and findings have been disseminated and how interested parties have been involved in the project.

12.2. Monitoring and evaluation of the activities

A monitoring strategy is to be established for a continued and informed steering of project implementation. The monitoring strategy aims to ensure that the project is implemented as planned, and that potential risks don't materialise or are appropriately addressed. It is therefore also of key importance to identify potential risks and measures to mitigate them when planning the project.

Moreover, every project should provide for an evaluation, ideally by somebody who is not implementing the project. The application should indicate:

- How the project activities, the outputs and the results shall be evaluated, and by whom;
- The list of quantitative and qualitative indicators that will be used to measure the reach and coverage of the project activities and project results;
- What data will be collected, according to what method and at what moments, including feedback from project participants (satisfaction surveys, evaluation forms, etc);
- How findings will be analysed and reported and how they will be used.
