

DRAFT of PROGRAMME

February 11, 2016

SAF€RA Symposium

First results from SAF€RA Funded Projects and Research Needs on Industrial Safety

Date: Tuesday 12 to Wednesday 13 April 2016
 Venue: National Center For Scientific Research – Demokritos
 27 Neapoleos, Aghia Paraskevi 153 10
 Attica, Greece
<http://www.demokritos.gr/?lang=en>
 How to come there: <https://ipta.demokritos.gr/ContactInfo.htm>

Tuesday, April 12, 2016

10:00 Registration

Opening Session

10:30 Welcome addresses
 Sébastien Mortier, European Commission
 Nick Kanellopoulos, Director of DEMOKRITOS

11:00 **Key Note speaker**
 Initiatives and projects addressing the challenges of
 implementation of the research results.

First session

Human and organizational factors including the value of industrial safety

Presentation of projects from the first and second SAF€RA joint calls
 Chairperson:

11:45 Predictive methods for determining the decomposition
 properties of hazardous substances: from development
 to experimental verification (HAZPRED), P. Rotureau,
 INERIS

- 12:10 Smart protective solutions for industrial safety and productivity in the cold, K. Jussila, FIOH
- 12:35 Plurisensorial Device to prevent occupational disease, F. Trabucco, Polimi
- 13:00 Discussion
- 13:30** Lunch break

Second session:

Human and organizational factors including the value of industrial safety

Presentation of SAFERA funded projects continues

Chairperson:

- 14:45 SAPHEDRA: Building a European Platform for evaluation of consequence models dedicated to emerging risks, S. Duplantier, Ineris
- 15:10 Smart Process INDustry CranEs (SPRINCE), M. F. Milazzo, Univ. Messina (IT)
- 15:35 RISING - indoor localization and building maintenance using radio frequency identification and inertial navigation, R. Setola, Univ. Roma
- 16:00** Break
- 16:15 Safety assessment of trans-boundary and multi-modal hazardous material transportation: concept development, A. Rogge, BAM
- 16:40 # 8
- 17:05 Discussion
- 17:30 Concluding the first day
- 18:30** Dinner
Till ca. 21:30

Wednesday, April 13, 2016

09:00 **Key Note**

Third session:

Innovating in safety and safe innovations

Presentation of SAF€RA funded projects continues

Chairperson:

9:45 # 10

10:00 # 11

10:25 # 12

10:50 Break

11:20 # 13

11:45 # 14

12:10 # 15

12:35 Lunch

Fourth session

Outlook on need for research in industrial safety

Chairperson:

13:30 **3rd Key Note speaker**
 or
Stakeholders statements from industry, legislation

14:00 Panel discussion

15:00 End of symposium

Registration

Registration in the SAF€RA Final Conference has to be made before February 26, 2016: <http://safera.industrialsafety-tp.org/Events/apply.aspx?EventID=9641>. For this event, participants will have to cover cost for meals and drinks by themselves (in the range of 20 to 30 € per meal and in the range of 30 to 40 € for the networking dinner), no additional fee will be charged.

Call for abstract

Presentations and posters dedicated to scientific topics and with wish to open new collaborations are encouraged.

Presentation: If you intend to make a presentation, please click [here](#).

Poster: If you intend to present a poster, please click [here](#).

Deadline to submit an abstract: March 15, 2016.

Accommodation

[Hotel propositions](#) but not special price, guests pay by themselves.

Contact

Dr. Olga Aneziris

Institute of Nuclear & Radiological Sciences & Technology, Energy & Safety - NCSR "Demokritos"

Patriarchou Gregoriou & Neapoleos Str.

Aghia Paraskevi

15310 – Athens (Greece)

Programme Committee

Jürgen Lexow, BAM, Germany, Symposium Chair

Olga Aneziris, Demokritos, Greece, Symposium Co-Chair

Carita Aschan, FIOH, Finland

Eric Marsden, FonCSI; France

Olivier Salvi, Ineris-Developpement, France

About SAF€RA:

SAF€RA was originated as an ERA-NET project entitled 'Coordination of European Research on Industrial Safety towards Smart and Sustainable Growth' that was funded for three years by the European Commission in the 7th Framework Programme (Grant agreement no: 291812). Under the ERA-NET scheme it identified areas of joint interest and expected synergies of collaborative research, and stimulated transnational research on industrial safety.

SAF€RA brings dynamism into European research on industrial safety where it cannot be tackled at the national level. SAF€RA will continue in context of the European Technology Platform on Industrial Safety, ETPIS, which initiated the original SAF€RA project.

Chairman: Jürgen Lexow, juergen.lexow@bam.de

Vice-Chairman: Olivier Salvi, salvi@eu-vri.eu
