Name of organisation: Royal Borough of Kensington and Chelsea

Description of organisation:

The Virtual School gives educational support to all children in the care of The Royal Borough of Kensington and Chelsea, a local authority in central London. We work with Looked After Children, and with their foster carers, social workers and designated teachers, providing students with one-to-one study support and learning resources. We also run Saturday English classes and develop extra-curricular activities to support young people's personal development.

Funding programme: Erasmus+ Key Action 1: Mobility of Individuals (Youth)

Call for Proposals: The deadline is 4 October 2016.

Project objectives:

The Virtual School aims to support Looked After Children to reach their full potential and enhance their life chances. Our objective for this project is to support the personal development of children in our care, and to increase their confidence and aspirations through providing opportunities to experience wider European culture.

Project activities:

Enrich care leavers (18-24) with travel and experience with the aim of them collaborating with other care leavers. Identity and belonging encourages students to explore the concept of social identity, the identities they have, and how the groups they belong to inform those identities.

In promoting an appreciation and understanding of European cultures, the theme brings an awareness and respect of diversity. The young people would lead on the workshops and activities.

Estimated duration: Up to 3 week exchange project

ACCESS EUROPE NETWORK

Are you planning to be the lead partner? Yes

What partners are you looking for?

Another school or education provider, with a successful track record of delivering similar projects.

Deadline for receiving declarations of interest: Tuesday 6 September.

Please provide a brief information about:

- 1) your organisation, including detail your legal entity type and when you were established
- 2) the young people you work with and areas of interest for the exchange and
- 3) Your experience of other EU or similar partnership projects
