CALL FOR PAPERS

Ekonomiaz Basque Economic Review

THE IMPACT OF IMMIGRATION ON THE BASQUE COUNTRY'S ECONOMY:
CHALLENGES AND OPPORTUNITIES
no. 111 (1st semester of 2027)

Editor/Coordinator:

Ramón Mahía

ramon.mahia@uam.es

Ekonomiaz is a biannual international review published since 1985 by the Department of Economy, Labour and Employment of the Basque Government that promotes economic analysis and debate, paying special attention to the regional field and, specifically, to the Basque economy. The goal of *Ekonomiaz* is to be a benchmark both nationally and internationally among the journals specialized in Economics. For that, the main strands of work are: a) the promotion of academic research, b) the quality disclosure of the results in the areas analysed, and c) the contribution to improving the rationality of the process of public decision-making in economic matters.

Ekonomiaz is inviting papers for no. 111 scheduled to be published in June 2027. Deadline for submission of papers: 2026/09/30

The editors-coordinators will not consider for publication content that has been previously published or is already under consideration for publication in another journal. Visit the rules for contributors on our website:
