

Rennes 2 University partnership offer

Organization description

Rennes 2 University

True to one of its principal functions, the *Université Rennes 2* organizes and promotes the development of research within its five training and research units for physical and sporting activities; arts, humanities and communication; languages; human sciences and social sciences.

Rennes 2 offers a wide variety of research programmes, including biomechanics of muscular exercise; educational sciences; linguistics and literary studies; psychology and sociology; land development and remote detection; statistics applied to social sciences; information and communication; archaeology and ancient, modern and contemporary history; plastic arts and history of art.

In a strong position with four mixed research units associated with CNRS, two young teams and 14 reception teams, the *Université Rennes 2* seeks to meet both private and institutional demand via research agreements with the IT, pharmaceuticals and automobile industries. The contribution of human and social sciences is now properly appreciated by the world of industry and researchers from other disciplines. *Rennes 2* intends to play its full role in this area.

A specific research axe has been developed around "Violence and Society" by the Criminology Institute:

*Urban violence:

security policies, prevention, rights and freedoms. In emerging criminality, including groupal practices challenge and risk taking (sport, fun and violence ...), crime and urban areas, psychology of fear (insecurity, violence ...)
