Source: Basque Observatory of Culture. Basque Edition Reports

Characteristics of the source

These reports gather data about the production, offer and turnover of books in Basque, wherever they were published. It includes data from the Basque Autonomous Community, the Autonomous Community of Navarre and the Northern Basque Country in France. Added to this are the productions made in Basque for editorials located outside of the above-mentioned territories and that publish in said language.

Included is information from Public Administration entities and dependent bodies that publish in Basque.

This study encompasses the edition of books in Basque, and covers the following types of businesses or entities:

- Private publishers in the Basque Autonomous Community (BAC). The publishing services of Associations and Foundations are included within this category.
- Private publishers in the Autonomous Community of Navarre (CFN).
- Iparralde publishers (France).
- Publishers from other Autonomous Communities (Other AC).
- Public entities (PE).

Administrator of the source

The Culture and Linguistic Policy Department, with collaboration from the Basque Country Editors Guild.
